

Ahsan Raza

React js Dev | Front-end Dev | Ui/Ux Designer at
KIT - Karachi Institute of Technology

Hey there! I'm Ahsan, an aspiring professional with a passion for learning and creating. My background is diverse, with experience in graphic design, WordPress website development, and even MERN stack development.

I'm adaptable and always eager to learn new things. I recently completed my intermediate studies at Govt. National College.

On the technical side, I'm proficient in the core web development languages like HTML, CSS, and Javascript. I'm also comfortable with frameworks like Bootstrap and libraries like React.js. But that's not all! Backend development is in my skillset too, with knowledge of Node.js, Express.js, and MongoDB.

On top of that, I'm confident using design software like Adobe Photoshop and Illustrator, and of course, the Microsoft Office suite is second nature to me.

I'm excited to take on new challenges and keep growing my abilities.

Strengths & Skills

- | | | |
|---------------|-----------------|-------------------|
| ✓ MS Access | ✓ MS PowerPoint | ✓ Mui |
| ✓ Html | ✓ CSS | ✓ Bootstrap |
| ✓ javascript | ✓ React Js | ✓ Adobe Photoshop |
